

IN THE SPECIFICATION

Please replace the paragraph beginning at page 8, line 1 with the following replacement paragraph:

As shown in FIGS. 5 and 6, each of the link members 23 is equipped with ~~[[a]]~~ an engaging hole 37 as engaging or coupling section. The locking member 29 is constituted such that it couples with the engaging hole 37 in the front window opening position. The link member 23 is one of parts, which are disposed on the side of the cabin main body. The engaging hole 37 serves as ~~[[a]]~~ an engaging section for the front window opening position, and the engaging hole is formed such that it extends about in a longitudinal direction of the link member.
